April 1.—At Chelmsford, Essex: a very valuable, extensive, and well-assorted stock of Dry Wood in great variety, comprising fine Spanish and Honduras Mahogany, mostly cut between six and seven years; particularly fine Zebra Wood, English Oak, Pencil Cedar, Birch, Beech, Elm, Rosewood, &c.

April 3.—At Whitley, near Raythorne End, Suffolk: a large quantity of Fir Timber.

MEETINGS OF SCIENTIFIC BODIES

During the ensuing week.

MONDAY, March 24.—Medical, Bolt-court Fleet-street, 8 P.M.

TUESDAY, 25.—Medical and Chirurgial, 53, Berners-street, 8½ P.M.; Zoological, Hannover-square, 8½ P.M.

WEDNESDAY, 26.—Pharmaceutical, 17, Bloomsbury-square, 9 P.M.; Ethnological, 27 A, Sackville-street, 8 P.M.

THURSDAY 27.—Numismatic, Somerset-house, 7 P.M.

SATURDAY, 27.—Westminster Medical, 32, Sackville-street, 8 P.M.; Institute of the Fine Arts (Society of Arts), Adelphi, 8 P.M.

TO CORRESPONDENTS.

"An Old Surveyor," "Vigil," and "W. H." will find an answer in our leading article.

"Architectural Drawing Schools."—We often receive inquiries as to the best school, and are unable to afford satisfactory information. We should be glad to learn what establishments of this kind there are in the metropolis.

"B. F." (Minorities).—There is no such class at present.

"H. N."—We shall be happy to receive his communication on the subject of Limes.

"A Constant Subscriber" must give notice to the district surveyor before any chimney-stack or flue is pulled down, cut into, or altered.

"R. B. W." (King's Langley) is thanked for the offer of his very nice drawing. We regret that we cannot avail ourselves of it, having already provided similar examples. We hope to hear from him again.

"W. P." (Woodbridge).—We are indebted for his enclosure, but consider the subject hardly of sufficient importance to be engraved. It is left as directed.

"R. B. R." (Fleetwood).—We thank our correspondent for the sketch, but cannot promise at this moment to engrave it. The ordinary mode of obtaining copies of "brasses" by means of heel-ball, is cleaner and more simple than that suggested by "R. B. R."

"G. P." (Preston) is thanked. The drawing shall be engraved shortly.

"R." (Sudbury).—The fluid to supersede Indian ink, of which he asks, is sold by Stephens, 54, Stamford-street, Blackfriars-road. We cannot answer for its goodness, not having tried it.

"Herne-hill Church Estimate."—The insertion of "Mr. Broomfield's" letter would subject him to an action at law: we must decline doing so.

"H. W." (Brompton).—We shall shortly examine the building in question, and shall probably be glad to avail ourselves of the offered tracings.

"One of the Competitors" (Holloway Chapel).—We cannot listen to anonymous charges without proof.

"A Plasterer" and "W. G. Lock."—Next week.

"N. B." wishes to know if Windsor Castle will be open to the public on Whit-monday.

"H. C."—The question is too general for us to answer.

"Clay for Modelling."—Mr. Dalton wishes us to state, the clay mentioned in our last number was first used for modelling by Mr. Sangieranni.

"Scrutator's" communication is declined with many thanks for kind intentions. It is left for him at the office.

Received.—"C. E. G." "E. G. B." (Oxford); "P. T."; "A Fair Tradesman," and "The Illustrated Family Journal, No. 3." A good two-penny worth.

ADVERTISEMENTS.

EMBARRASSED CIRCUMSTANCES.

PERSONS IN DIFFICULTIES being desirous of availing themselves of the Benefit of LORD BROUGHAM'S HUMANE ACT, are requested to apply to MESSRS. GRANT AND CO., of 34, Coleman-street, City, where every information may be obtained, FREE OF EXPENSE, or arrangements can be made with Creditors, by which means the painful necessity of resorting to BANKRUPTCY or INSOLVENCY may in many cases be avoided.—N.B. Partnership accounts adjusted.

TO BUILDERS AND OTHERS.—A cheap

substitute for high priced bricks, well worthy the attention of speculative gentlemen, and other capitalists who intend building this season. This article is stone, which may be worked with great advantage. It is in pieces from 3 to 6 inches in thickness, and averaging from 14 to 20 pounds in weight; it is about the same weight as bricks, and will be sold in London at 12s. 6d. per ton. Any quantity may be had from 100 to 200 tons per week; not more would be guaranteed per week, as it will come by railway. A fair sample of 10 or 12 tons may be seen at the proprietor's at any time.—Address, JAMES PERREN, 1, Victoria-place, Surrey-square, Walworth.

TO UPHOLSTERERS, CARPENTERS,

BUILDERS, AND CONTRACTORS.

Furniture cleaned and glazed	per yard	6 d.
Lined ditto	ditto	0 1½

PAINTING BRUSHES OF SUPERIOR QUALITY.

TO PAINTERS, BUILDERS, &c.

J. J. KENT AND CO.,

MANUFACTURERS,
11, GREAT MARLBOROUGH-STREET, LONDON.
Offer to Painters, Builders, &c., Painting Brushes of a quality far superior to those generally offered for sale, to which they beg to call the attention of all who prefer quality and durability to apparent cheapness.

000000—7 in. Dusters.
000000—7 in. ditto, extra.
0000—Ground Brushes.
Plasterers' Brushes.
Masonry ditto. Ground and Unground.
Sash Tools, and Gougeon Tools.
Tear Brushes and Masons' Brushes, and all other Brushes used by Painters and Artists.
Lists of Prices of Painting Brushes, and of all other kinds of Brushes, forwarded on application. Established 1777.

E. WOLFF & SON'S

NEWLY-INVENTED

MATHEMATICAL PENCILS,

FOR

MATHEMATICIANS, ARCHITECTS, & ENGINEERS,
Warranted to retain a very fine Point.

E. WOLFF AND SON, in introducing their Extra Hard Lead Pencils for Mathematical and Architectural purposes, beg to draw attention to the advantages resulting from their adoption in preference to the ordinary Pencils. They are made to six distinct sizes, by which means they can be fitted to all instruments, and are so constructed that each Pencil may be cut in halves without waste, thus making two Pencils each of a length, and most convenient for use, and obviating the difficulties existing with respect to the ordinary Pencils.

E. W. and Son have also half-round Pencils, suitable for the Spring Bow, thus preventing the necessity of dividing the Pencil down the centre. They are made of extremely Hard Lead, of the finest quality, which will retain a very fine point and give a clear, even, and distinct line.—Price 4s. per dozen.

PATTERN OF SIZES.

A Sample of each size will be sent by Post to any part of the Kingdom, on the receipt of Postage Stamps equal to the amount.

Drawing Pencils of the best quality, for Architects and Engineers, warranted free from grit: the 4mm and 5mm are particularly recommended.—Price 6s. per dozen.

May be had of all Instrument Makers and Stationers, and at the Manufacturers', 23, Church-street, Spitalfields, London.

WALLIS'S PATENT LIQUID WOOD

KNOTTING.—This newly-discovered Liquid Composition which Messrs. Geo. and Thos. Wallis have the satisfaction of introducing to the trade, possesses the important qualification of effectually stopping knots in Wood, however bad, and preventing them eating through and disfiguring the paint above.

Many substances have been used and much time spent in endeavouring to find a cure for a bad Knot, but hitherto without success. Messrs. Wallis therefore feel much pleasure in offering to the public an article so long and anxiously called for.

In the application, skill is not required; a boy can use it as well and effectually as the best workmen: it is put on to the work with a brush like common paint, can be used in all climates and situations, and does not require heat.

Sold wholesale and retail, by Messrs. G. and T. Wallis, Varnish, Japan, and Colour Manufacturers, No. 64, Long Acre. Price 20s. per gallon.

VARNISH.—It has long been a desideratum

amongst the consumers of Varnish to obtain a good and genuine article; brilliancy, facility of drying, hardness, and durability are the qualifications necessary, but these are seldom if ever found united. The experience of a life-time devoted exclusively to the manufacture of this article, the great and important discoveries of modern chemistry, and the daily improvements in machinery, have enabled Messrs. George and Thomas Wallis to produce Varnishes (both oil and spirit) unrivalled in every respect, and they confidently recommend them to the trade, as deserving of notice both in price and quality.

Builders, Combmakers, Painters, and others may depend on being supplied with a genuine and unaltered article. Fine Oil Varnish, from 10s. per gallon; best White Spirit Varnish, 9s. 6d.; Best Spirit French Polish, 10s. 6d.; ditto White Lead Oil Varnish, and Colours of every description at the very lowest prices.—WALLIS'S Varnish, Japan, and Colour Manufactory, 64, Long-acre, one door from Bow-street. Established 1750.

HIP TILES to suit slate roofs in colour;

Ridges, with plain or rebated joints, full tops, and vertical ornaments; draught, many sizes, with plain or rebated joints; paving in squares, hexagons, octagons, &c., different colours; roofing, in French or Italian style, other devices also, or plain; conduits, which do not injure pure water, fire-bricks and tiles; clinkers, and out-door paving; sundry wall-copies, garden borders, chimney-tops; also tubular and other uses of peculiar material. No agent, but a depot at WHITEFRIARS, and 21, WATER-LANE, FLEET-STREET, LONDON, under Mr. PRANK'S personal care, to supply genuine THERMO-METALLIC goods at low prices as per quality.

THE TILES, TUNSTALL, STAFFORDSHIRE, are near the centre of England, whence boats are sent direct to any inland place, or to the Mersey for the colonies, the colonies and elsewhere.

HATCHER'S BENNENDEN TILE-

MACHINE; Manufactured and Sold only by COTTON and HALL, Engineers, Agricultural Implement Makers, &c., 9, Winsley-street, Oxford-street, London.

This is the most efficient Machine that has been invented for the purpose of making Drain Tiles. Any shaped Tile can be made by merely changing the die, which can be done in a few minutes. It requires but few hands, viz., our own boys. With this amount of labour, the product of 10 to 15 hours is as follows, viz.—

1 inch diameter of	14 inches diameter of
THE 11,000	Tiles 5,500
14 " " " "	24 " " " "
16 " " " "	32 " " " "

The Machine is moveable down the drying- sheds, so that it requires no extra boys to carry the tiles, and no extra labour required in drying. It has been in full operation for upwards of four months at Hempstead Farm, near Cranbrook, Kent. No charge made for Patent right or licence. The purchase of the machine includes free use of 16
